MARKETING OPS THAT GROW FASTER THAN THE TEAM

with AI agents doing the work and a playbook everyone works from

KASPER ASMUSSEN

I build the AI workflows my campaigns run on, and then write down how they work. Three years of hands-on paid social and search in Meta, Google and LinkedIn Ads, a master's in Marketing & Brand Management, and a habit of turning manual work into templated processes with a clear human in the loop.

EXPERIENCE

AI Marketing Manager
Aug 2026 to now

Africa Tours ApS

- Automated **Meta Ads** in **30 days**, from analysis and reports to setup and changes, with AI workflows I steer and check.
- Lifted daily leads on Africa trips from **0-2 to 5** in my first **14 days**.
- Built shared checklists for marketing audits and competitor analysis, so the team works from **one playbook**.
- Built the new website in **Claude Design** and **Claude Code**.

Marketing Coordinator
Aug 2024 to Aug 2026

VoiceArchive

- Built a multi-agent **Marketing OS** that saved **12 hours a week** in marketing and **10** in sales, and made the external agency redundant.
- Built one templated **n8n** flow that produced **320 landing pages** from structured data.
- Raised **Google Ads** search impression share from **17 to 40%**.
- Ran ABM toward Ogilvy, Havas, McCann and Dentsu with **12x ROI**.

Marketing Coordinator
Nov 2023 to Aug 2024

Poetype

- Project-managed **5 events** with **260 attendees** and **5 webinars** with **600**.
- Automated email flows and paid advertising with **Make.com** and **Zapier**.
- Produced **12 podcast episodes** that reached top 2 on the marketing chart.

Student jobs, 2019 to 2023: consultant at Cand (brand strategy, e-commerce, SEO and CRO) and web and online marketing assistant at Gallerie Rasmus.

PROJECT

HeyOtto OS: my own agent and capacity tool. Priorities, tasks and hours sit in one view, so nothing slips for lack of time, and an agent team of **21 agents** produces content, ads and analyses.

TOOLS

- **Claude Code** — AI workflows
- **n8n** — Automation
- **GitHub** — Version control
- **Vercel** — Hosting and deploy
- **Google Cloud** — APIs
- **Meta Ads API** — Ads automation

Paid media: Meta Ads, Google Ads, LinkedIn Ads.
Also: HubSpot, Make, Zapier, Notion, monday.com, Higgsfield, Canva, Photoshop.

HOW I WORK

1. **Tour de chambre first.** I see how the work actually flows before I change it.
2. **One quality bar.** The same standard for people and agents, written down.
3. **Move the line in steps.** From human in the loop to oversight, measured.
4. **Show it with data.** Delivery time and quality per customer, visible to everyone.

EDUCATION

MSc in Marketing & Brand Management
University of Southern Denmark, 2021 to 2023

BSc in Business Administration, Marketing and Branding
2018 to 2021
